**CONTINUING
EDUCATION**

Course Description

Brush up your scientific and medical writing skills. Learn how to structure scientific papers and reports and write a clear and informative scientific text. This course provides a comprehensive overview of the strategic scientific and medical writing field and offers hands-on training in writing and analyzing scientific texts.

The course will be conducted in English.

Course Program

This course will cover:

- What is the correct strategic approach to writing successful documents
- How to convey a message to the target audience
- How to produce high-quality documents
- What are the requirements to reach a successful outcome
- Ethics of scientific writing
- Practical work with multiple exercises

Learning Outcomes

By the end of the course, students will be able to:

- Know key elements of good medical and scientific writing
- Critically appraise texts and identify elements of poor writing
- Convert some examples of poor writing to good scientific writing
- Reproduce the most important aspects of good medical and scientific writing
- Improve own texts

Course Faculty

Dr. Silvia M. Rogers, MEDIWRITE, Basel, Switzerland

Target Audience

This course is for all professionals (native or non-native English speakers) who intend to improve their scientific medical writing skills.

Course Credits

The course including homework provides 1 ECTS credit and a Certificate of Attendance by the University of Basel will be issued. 100 FPH credit points in hospital pharmacy (accreditation to be submitted)

Course Date and Venue

November 11–12, 2024
University of Basel
Steinengraben 22, 4051 Basel

Course Fee

Course fee including certificate, electronic course material and book by Silvia Rogers is 1200 CHF. A reduced fee applies to participants from academia and nonprofit organizations.
